

AUTOFEED CONVEYOR

M9 SORTER & M108S TRIMMER COMPATIBLE

Full automation is easily achieved by adding the M9 Autofeed Conveyor with its custom low-profile Autofeed Hopper, which swaps into place in seconds, tool-free. The Autofeed Conveyor can be fed directly from the M108S Trimmer, or from the Mobius Outfeed Conveyor if your operation includes hand touch-up on the Outfeed belt.

This speed-adjustable cannabis conveyor raises your product for sorting with the Mobius M9 Sorter. The stainless-steel hopper can integrate with multiple trimmer lines for even greater automation and cost savings.

KEY FEATURES

Stainless steel construction

Engineered specifically for cannabis processing

Washdown-rated components

Tool-free 60-second disassembly

Easily pairs with the Mobius M108S Trimmer, Mobius Outfeed Conveyor, and the M9 Sorter

Variable speed and direction controls

Hand-built in North America

GMP ready
