

MOBIUS M108S TRIMMER

KEEP ME HYDRATED

If tumbler is not in use every day or every other day, it is recommended to store the tumbler with **1 TSP (10 ML)** (approximately 2 bottle caps) of water to maintain the pliability of the plastic rings and end caps.

We recommend keeping tumblers in this environment overnight in between shifts, especially in dry climates.

OPTION A: SOAK N' STORE

Store in a soak n' store tub. Add water and keep covered.

OPTION B: PLASTIC BAG

Store in the clean plastic bag. Add water and twist to seal.
