

MM20 & MM65 HASH WASHERS

INDUSTRIAL-SCALE HASH WASHERS

Achieve optimal trichome separation and high yields of bubble hash. The Mobius MM20 and MM65 ensure maximum potency for solventless extraction.

AUTOMATIC WASHING CYCLES

Choose the settings for your wash sequence and start the machine. The washer will automatically run through the cycle with your pre-set spin directions and timer.

CUSTOMIZED SYSTEM

The MM hash washer series is available as an all-inclusive washing and collection kit, or as modular components. Get the complete system ready to operate, or select individual components to upgrade or outfit an existing bubble hash workflow.

REDUCE LABOR AND BOOST EFFICIENCY

All-in-one system and automatic operation free up personnel for other tasks. Prep hash bags, cold trays, and collection utensils while the flower is washing.

EASY CLEANING

Reduce downtime with the built-in tilt system for quick and easy cleaning. FDA-approved food-safe stainless steel construction ready for any GMP-certified facility.

GENTLE ON TRICHOMES

No-shear impeller creates a gentle vortex for easy trichome separation. Built-in pump and drain let you cycle the water back through the washer for additional rounds of extraction.

KEY FEATURES

Built-in thermometer

Savable settings

Customizable solutions

Stainless steel construction

Touch-screen HMI

Easy collection bag setup

Built-in step stool
