MOBIUS TRIMMER

MAXIMIZE TAX SAVINGS ON MOBIUS EQUIPMENT

As a leading manufacturer of high-quality equipment, Mobius is committed to helping your business thrive. With the end of the year approaching, we want to highlight an excellent opportunity under the federal Section 179* tax deduction. This program allows qualifying businesses to deduct the full cost of eligible equipment purchases (up to a specified amount) from their taxable income, providing significant savings.

*Please note that this deduction applies to producers of non-THC products, such as hemp-related products. It is up to the applicant to describe their operations appropriately when claiming the deduction. Always consult a tax professional for personalized advice.

SECTION 179 OVERVIEW

- **Deduction Overview:** Businesses can deduct the entire purchase price of qualifying equipment in the year it is placed in service, rather than depreciating it over time.
- **Key Limits:** For 2025, up to $2,500,000 can be deducted if total qualifying equipment costs do not exceed $4,000,000. The deduction phases out dollar-for-dollar above this threshold.
- **Timing:** Equipment must be purchased and put into use by the end of the calendar year to qualify for the current tax year.

QUALIFYING EQUIPMENT FOR SECTION 179

Mobius equipment could qualify under the specifications. Purchasing a new machine can make your operations more efficient while unlocking these tax benefits—potentially making high-quality machinery more affordable than ever.

FINANCING AND NEXT STEPS

Section 179 applies equally to purchased, leased, or financed equipment. If cash flow is a concern, explore financing options to acquire Mobius equipment before year-end. This could turn a planned future purchase into an immediate tax advantage.

Contact your Mobius representative today to discuss how our equipment fits your needs and qualifies for Section 179. We're here to help you act quickly and maximize savings.
